Earl,

I want to thank you and your guys for the excellent job that you all did in refurbishing my cabin. After several very disappointing attempts to have my cabin "re-stained", I decided to contact your company after I saw what a great job ya'll had done on one of my neighbor's cabin. I am so glad that I did! Your men sanded and stripped my darkened and mildewed logs down to new wood and the result is that now we have a "new-looking" cabin again. Don't hesitate to send skeptical potential customers to look at my refurbished cabin, or better yet, give them my cell phone number and have them call me

I believe that your wife has "before", "during", and "after" pictures of my cabin that she can show folks as well.

Again, thanks for the super job!

Tommy and Sherry Callaway
