Mr. Earl Windsor  
Windsor Painting & Log Home Restoration

Dear Earl,

In response to the excellent work you have done on my cabin, I voluntarily submitting this letter endorsing your firm. As a conscientious homeowner, I have repeatedly been disappointed by the number of irresponsible people who advertise their services and then fail to deliver as promised. YOU HAVE DELIVERED .. AND THEN SOME!

I have a chink log cabin that needed significant work on the chinking and treatment on the logs. In desperation, I tried to find a reputable firm to treat my cabin. I tried three separate advertised "professional" firms only to find that they had no idea of what they were doing, but did have the audacity to display their incompetence for an exorbitantly quoted price. Fortunately, I looked elsewhere.

It was my great good fortune to ultimately do business with Windsor Painting. To say that I was "Impressed" is an understatement. I was amazed at the attention to detail and the dedication to doing an outstanding job .. all for what I considered a very fair price. After my previous experiences, I was totally impressed by the knowledge and professional attention I received from Windsor Painting.

Would I hire Windsor Painting again? I already have! After receiving unsatisfactory information from one local pest control firm, regarding treating Carpenter Bee damage to my cabin, I thought of Earl Windsor. Why not contact Earl? I did and was not surprised to again see his interest, his research and knowledge regarding my problem. That work is in progress.

On June 16, 2004 Windsor Painting & Log Restoration was at my cabin, once again exhibiting the care and professionalism that typifies their approach to solving home owner problems. The desire to please the customer is their top priority. My experience is that "if Earl is pleased, I will be pleased".

My point in this is to share my experiences with those unfortunate persons in need of painting and/or cabin restoration but who are *lost in the yellow pages* .. and/or feel they are at the mercy of expensive amateurs. .. Try Windsor Painting and Log Home Restoration, you won't be disappointed.

Sincerely,

Frank Simons
